

A terminal window with a dark background and a vertical toolbar on the left. The toolbar contains icons for file operations (copy, paste, delete), navigation (back, forward, search), and other functions. The terminal output shows a program that prompts for two numbers and performs basic arithmetic operations. The first number entered is 5, and the second is 10. The results of addition, subtraction, multiplication, and division are displayed. The program ends with a message indicating it finished successfully with exit code 0.

```
Enter the first number: 5
Enter the second number: 10
Addition: 15
Subtraction: -5
Multiplication: 50
Division: 0.5

Process finished with exit code 0
```
